

BOYS & GIRLS CLUBS
OF THE PENINSULA

Position Title: Intel Computer Clubhouse Assistant
Department: Moldaw Zaffaroni Clubhouse, East Palo Alto
Reports to: Technology Director
Employment Status: Hourly Part time, 20 hours per week
Rate Range: \$14 + per hour DOE

We're seeking a CREATIVE, POSITIVE, ENERGETIC LEADER to help manage an innovative program which teaches kids how to use technology.

The Boys and Girls Club of the Peninsula East Palo Alto Clubhouse houses the Intel Computer Clubhouse which provides a creative and safe after-school learning environment where young people from under-served communities work with adult mentors to explore their own ideas, develop skills, and build confidence in themselves through the use of technology. Established in 1993 by The Computer Museum (now part of the Museum of Science, Boston) in collaboration with the MIT Media Laboratory, the Computer Clubhouse helps youth acquire the tools necessary for personal and professional success.

The goal of the Intel Computer Clubhouse Network is to proliferate the highly successful Clubhouse learning approach and establish it as a replicable model for technology learning. Using the "original" Clubhouse as a model, the Intel Computer Clubhouse Network currently supports over 100 Computer Clubhouses around the world, providing thousands of youth with access to resources, skills, and experiences to help them succeed in their careers, contribute to their communities, and lead outstanding lives.
